SPECTRUM VOICE® RESIDENTIAL SERVICES PRICE GUIDE

(EFFECTIVE: JANUARY 15, 2019)

Basic Service: Basic service provides real-time, two-way voice communications service permitting users to receive calls that originate on the public switched telephone network and terminate calls on the public switched telephone network. Basic service will be provided with E911 emergency service¹, access to; operator services², directory assistance³, private number service (your number is not published or accessible via directory assistance), Subscriber and repair call services, line intercept service, Telephone Relay Service (TRS)⁴, long distance calling and unlimited local calling within the local service area⁵. Basic Service is included as part of the Company's Voice packages listed below. A Line Access charge, Universal Service Fund charges and other surcharges, taxes and fees may be billed monthly to the Subscriber.

Long Distance Service: The terms set forth in this Price Guide, as well as those found in the Spectrum Agreement for Residential Services, apply to extended long distance services furnished by the Company for non-local calls within the U.S. and to specific international locations as referenced within the packages described below. The Company provides such long distance services, including direct-dialed services, to Subscribers of the Company's local service. The Subscriber must choose the Company as their service provider for all long distance calls in order to subscribe to a service. No substitutions on service packages are allowed. Rates (package or per minute) for long distance calls include only direct-dialed (1+) calls. Operator assisted (0+) calls are excluded from the stated package. The Company reserves the right to review usage of any long distance service (package or per minute services) and discontinue or block long distance services without further notice if Subscriber is utilizing the service for non-residential purposes or is exceeding acceptable usage. Calls are measured in duration increments of sixty (60) seconds. All calls which are a fraction of a measurement increment are rounded up to the next whole unit. Timing on completed calls begins when the call is answered by the called party. Answering is determined by hardware answer supervision in all cases where signaling is provided by the terminating local carrier and any intermediate carrier(s). Timing terminates on all calls when the calling party hangs up or the Company's network receives an on-hook signal from the terminating carrier. Service provides the Company's Subscribers with the ability to originate calls to all other stations on the public switched telephone network bearing any rate center office(s) designation outside the Subscriber's local calling area. See also <https://www.spectrum.com/home-phone?cmp=BHN>

1 The Company will provide 911 location information for all lines on the same account and does not support multiple address locations.

2 Provides Subscribers with assistance using operators or an automated interactive voice system. Please also see <http://www.charter.net/support/voice/placing-domestic-and-international-calls/>

3 The Company will list its Subscribers' telephone numbers with directory assistance providers, except private telephone numbers. Please also see <http://www.charter.net/support/voice/spectrum-voice-phone-service/>

4 Please see <http://www.charter.net/support/voice/spectrum-voice-phone-service/>

5 Local service area as determined by the Company.
