Application of Guide

This Guide sets forth the service offerings, rates, terms and conditions of services applicable to furnishing intrastate common carrier local and interexchange telecommunications services by Charter Fiberlink-Michigan, LLC and Charter Fiberlink CC VIII, LLC (the "Telephone Company" or the "Company"), a competitive facilities-based provider, to customers within the state of Michigan.

The Company may assign its rights or delegate its obligations under this Guide to any affiliate or successor in interest. The Customer may not transfer or assign his or her rights or obligations associated with the Services hereunder without the Company's prior written consent.

This Guide is to be governed by and construed in accordance with the laws of the State of Michigan.

In the event of a conflict or inconsistency between (i) the Contract, as defined herein, and (ii) this Guide, the Guide will govern.

Should any provision of this Guide be held by a court or administrative agency of competent jurisdiction to be illegal, invalid, or unenforceable, the remaining provisions of this Guide will remain in full force and effect.

Explanation of Symbols

The following symbols are used herein to identify schedule and text changes:

- (R) To signify a reduction in rate or charge
- (I) To signify an increase in rate or charge
- (C) To signify a changed regulation or condition which may affect a rate or charge
- (T) To signify a change in text, but no change in rate, charge, regulation or condition
- (M) To signify relocation of text without change
- (N) To signify a new rate, charge, regulation or condition
- (D) To signify a discontinued rate, charge, regulation or condition

1. Definitions and Terms

Account – Either a Customer’s physical location or individual Service represented by a unique account number within the billing hierarchy. Multiple services each with a unique account number may be part of one physical location.

Application – A request made orally or in writing (including by electronic means) for Service.

Authorized Account User – The person or persons authorized to make changes to a Customer Account including changes to Interexchange Carriers as designated by the account holder. Authorized Account Users shall be limited to two persons for any single postal address.

Automatic Location Identification (ALI) – The use of a database to associate a physical location with a telephone number.

Business Service – Telephone Service to be used primarily for other than family, household or personal purposes, and as described herein.

Calling Area – A specific geographic area so designated for the purpose of applying a specified rate structure.

Carrier – The term “Carrier” means a provider of Telecommunications Service.

1. Definitions and Terms (cont'd)

Central Office – A switching unit in a telephone system which provides service to the general public, having the necessary equipment and operating arrangements for the terminating and interconnecting customer lines and trunks or trunks only. There may be more than one central office in a building or exchange.

Competitive Local Exchange Carrier (CLEC) or Alternative Local Exchange Carrier (ALEC) – Refers to any entity or person providing local exchange services in competition with an ILEC or LEC.

Commission – Michigan Public Service Commission.

Connecting Company – A corporation, association, partnership, individual or other person owning or operating in one or more Exchanges and with which communications services are interchanged.

Construction Charge – A separate nonrecurring charge made for the construction of facilities.

Contiguous Property – The plot of ground, together with any building thereon, occupied by the Customer or User, which is not divided by public highways or separated by property occupied by others.

Contract or Service Agreement – The agreement between a Customer and the Telephone Company under which Services and facilities are furnished. The Contract or Service Agreement may consist of or include the Service Order. Unless stated otherwise by the Contract or Service Agreement, the Contract or Service Agreement may include, incorporate or refer to the provisions of this Tariff.

Cost – The cost of labor and materials, which includes appropriate amounts to cover the Telephone Company's general operating and administrative expenses.

Customer – The individual, partnership, association, corporation or other person which enters into a Contract for Service and is responsible for the payment of charges and compliance with the Tariff and/or Contract or Service Agreement.

Customer Provided Equipment or Customer Premises Equipment (CPE) – Refers to terminal equipment normally used on the Premises and owned or provided by the Customer or User, or owned by the Telephone Company or some other supplier and leased to the Customer or User; including the terminal equipment located or held in inventory on the Premises.

1. Definitions and Terms (cont'd)

Demarcation Point – That point (also referred to as Network Interface) or interconnection between the Telephone Company's facilities and the wiring at the subscriber's premise. The Demarcation Point shall consist of wire or a jack conforming to Subpart F or Part 68 of the Federal Communications Commission's Rules and Regulations. The Demarcation Point will generally be within twelve inches of the protector or, absent a protector, within twelve inches of the entry point to the Customer's Premises. If conforming to the twelve inches is unrealistic or technically impossible, the Demarcation Point will be the most practicable minimum point of entry to the Customer's Premises. The network interface may be located at a point other than the normal demarcation point where the network interface has been previously established by the presence of network equipment. With regard to Premises for any structure that is built to be more mobile (e.g., mobile homes, recreational vehicles), the Telephone Company may place the Demarcation Point on a post or pole at or near the pad where such structure is intended to rest. Boat docks, marinas and similar Premises may be treated by the Telephone Company as a single unit Premises, with the Demarcation Point being placed on the shore or other location as deemed appropriate by the Telephone Company.

Delinquent or Delinquency – An account for which payment has not been made in full on or before the last day for timely payment.

Digital Transmission – Information transmitted in the form of digitally encoded signals.

Exchange or Exchange Area – A geographically defined area or contiguous areas, including for mandatory extended area service, established by the telephone industry or the Commission, within which Local Exchange Carriers hold themselves out to provide local communications services of the character ordinarily furnished by a single exchange.

Facility (or Facilities) – Any item or items of communications plant or equipment used to provide or connect to the Services.

FCC – Federal Communications Commission.

1. Definitions and Terms (cont'd)

Guide or Tariff – A schedule of local and interexchange rates and charges, rules and regulations, terms and conditions.

Incumbent Local Exchange Carrier (ILEC) or Incumbent Telephone Company – is any local exchange carrier that on February 8, 1996, provided local exchange service in an Exchange Area, and either as of February 8, 1996 was deemed to be a member of the Exchange Carrier Association as set forth in 47 C.F.R. 69.601(b) of the FCC's regulations, or is a person or entity that, on or after February 8, 1996, became a successor or assign of such a member of the Exchange Carrier Association.

Holiday – means all Company-specified holidays: New Year's Day (January 1), Memorial Day, Independence Day (July 4), Labor Day, Thanksgiving Day and Christmas Day (December 25).

Initial Service Period – The minimum length of time for which a Customer is obligated to pay for service, facilities and equipment whether or not retained by the Customer for such minimum length of time.

Installation Charge – A nonrecurring charge made at the time of installation of communications service or equipment, which applies in addition to service charges and other applicable charges for service or equipment unless specifically exempted.

Interconnection – The method by which facilities of the Telephone Company are arranged to exchange communications with Other Providers, and to transmit to, or receive information from, customer-provided equipment.

1. Definitions and Terms (cont'd)

Interstate – Refers to communications between states within the continental U.S., unless otherwise noted.

Interruption – Refers to the disruption of Service such that the Service becomes unusable by the User.

Intrastate – Refers to communications within a single state.

Local Access and Transport Area (LATA) – means a geographical area established by the U.S. District Court for the District of Columbia in Civil Action No. 82-0192, within which a LEC provides communications service.

Local Calling Service Area or Local Service Area – Refers to the Exchange Area throughout which communications service is rendered to a Customer or Users without the application of toll charges.

Local Exchange Carrier (LEC) – An ILEC or CLEC providing communications service within the same Exchange Area or Local Service Area.

Local Exchange Service or Exchange Service – When referring to the Company, Telephone Service within an Exchange Area in accordance with the provisions of the Contract and the Tariff. When referring to Other Providers, communications service within an Exchange Area or Local Service Area.

Location – A physical premise to or from which the Telephone Company provides Service.

Message – A completed Customer call.

1. Definitions and Terms (cont'd)

MRC – The monthly recurring charge

Multi-Media Terminal Adapter (MTA) – A modem provided by the Company as CPE that enables the Company network to communicate with the inside wiring of the Premises.

New Customer – A Customer who has not had telephone service within the last sixty (60) days.

Non-Listed Telephone Number – Telephone numbers that are not listed in the telephone directory; but are provided via directory assistance.

Non-Published Telephone Number – Telephone numbers that are not listed in the telephone directory or provided via directory assistance.

Other Provider – Refers to common carriers or service providers other than the Company, and whose services or facilities are connected to or used by the Company in providing the Services.

Premises – The buildings, portion or portions of a building on continuous property used and/or occupied at one time by the Customer or User as a residence or business. Where floor space in adjoining buildings is made continuous at one or more floor levels, all floor space in both buildings is considered as the same premises insofar as the Customer or User who uses and occupies such continuous floor space is concerned, the two buildings otherwise being considered as separate buildings.

Private Number Service – Refers to a non-published and/or non-listed telephone number for the purpose of directory assistance.

1. Definitions and Terms (cont'd)

Service(s) – The Telephone Company's Telephone Services and related facilities and equipment provided pursuant to the regulations or conditions set forth in this Tariff and the Contract with the Customer.

Service Agreement – See "Contract or Service Agreement".

Service Charge – The nonrecurring charge a Customer is required to pay for establishing Service or subsequent modification of Service.

Service Order – Refers to an application of a Customer for Services. See "Contract or Service Agreement".

Subscriber – The term "Customer" is synonymous with the term "subscriber".

Telecommunications – The transmission, between or among points specified by the user, of information of the user's choosing, without change in the form or content of the information as sent and received.

Telecommunications Service(s) – The offering of telecommunications for a fee directly to the public, or to such classes of users as to be effectively available directly to the public, regardless of the facilities used.

Telephone Company or Company – Charter Fiberlink-Michigan, LLC.

Telephone Service – For purposes of this Tariff, the Company's intrastate Telecommunications Services and voice communications services offered on a common carrier basis.

Telecommunications Relay Service (TRS) – TRS enables deaf, hard-of-hearing or speech-impaired persons who use a text telephone or similar devices, to communicate with the hearing population not using text telephone and visa versa.

Telecommunications Service(s) – The offering of Telecommunications for a fee directly to the public, or to such classes of users as to be effectively available directly to the public, regardless of the Facilities used.

1. Definitions and Terms (cont'd)

Telephone Set – A telephone instrument consisting of a transmitter, receiver, and associated apparatus connected to permit transmission and receipt of telephone messages.

Terminal Equipment – Equipment at the terminal of a communication circuit.

Terminal Equipment Accessories – Devices, apparatus and their associated wiring, provided by a Customer, which do not constitute a communications system and which when connected to the telecommunications system of the Telephone Company, are connected electrically, acoustically or inductively

Termination Charge – A charge applied under certain conditions when service is terminated by the Customer before the expiration of the minimum commitment period.

Timely Payment – A payment on a Customer's Account made on or before the due date.

Underground Service Connection – A Customer's "drop" wire that is run underground from a pole line or an underground distributing cable.

Underlying Carrier – A provider of communications services from whom the Telephone Company acquires services that it resells to Customers.

2. Rules and Regulations

The regulations set forth in Charter Fiberlink-Michigan, LLC Local and Interexchange Tariff MPSC No. 3 apply to intrastate local exchange and interexchange telephone services and facilities furnished within the State of Michigan.

3. Exchange Service Areas

Local exchange services are provided, subject to availability of facilities and equipment, in areas served by the Incumbent Local Exchange Carriers (ILEC). The Company hereby mirrors the Map and Legal Description tariffs of the exchanges, provided by the ILEC. Any future modifications to these exchange boundaries or legal descriptions of these boundaries will be automatically mirrored by the Company on a going forward basis.

6. Business Services

6.12. High Capacity Transmission Services

(T)

The following services are offered where technically and operationally feasible.

A. General Description of Service

(T)

High Capacity Transmission Services provides a point-to-point, point-to-multipoint and multipoint-to-multipoint dedicated connection between one or more customer-defined locations and/or the Company. The service, which may utilize Ethernet interfaces, optical fiber and/or coaxial cable facilities, is scalable from 1 Mbps to 100 Gbps and will be designed and provisioned on an Individual Case Basis (ICB) pursuant to contracts with Customers. All requesting Customers shall have non-discriminatory access to ICB Services and facilities at non-discriminatory rates, terms and conditions.
